The Commission has been monitoring the outbreak of the CoViD 19 pandemic in the country and the following resolutions were agreed at the emergency meeting held earlier today –

1. Guidelines shall be issued to all operators in the Nigerian Electricity Supply Industry ("NESI") on the safety/protection of workers and protocols on guaranteeing supply by ensuring that there are minimal disruptions to end-use customers during this period.

2. All non-essential staff of the Commission have been directed to work from home for the next 2 weeks.

3. Essential staff of the Commission (i.e. Commissioners, heads of divisions, members of the IT unit, Registry and other staff nominated by the Commission) shall continue to work from the office.

4. All essential staff whose physical presence is required in the Commission are required to comply with strict personal hygiene and social distancing measures prescribed by the Nigeria Center for Disease Control ("NCDC").

5. The Commission advises members of the pubic that are conducting business with the Commission to refrain from visiting our offices during this period but contact us through other channels of communication.

6. There shall be no hearings at Forum Offices and all customer complaints should be lodged to the Forum Offices through other channels of communication.

7. No one shall be granted access to the building without being subjected to the screening prescribed by the NCDC.

Signed

Management
