33.4 Tenders not opened and read out at the Tender opening shall not be considered, irrespective of the circumstances, and shall be returned unopened to the Tenderer.

33.5 No Tender shall be rejected at the Tender opening, except for late Tenders, which shall be returned unopened to the Tenderer pursuant to ITT Clause 31. Confidentiality

34.1 After the opening of Tenders, information relating to the examination, clarification, and evaluation of Tenders and recommendations for award shall not be disclosed to Tenderers or other persons not officially concerned with the evaluation process until after the award of the Contract is announced.

Tender Clarification

35.1 The Procuring Entity may ask Tenderers for clarification of their Tenders in order to facilitate the examination and evaluation of Tenders. The request for clarification and the response shall be in writing, and any changes in the prices or substance of the Tender shall not be sought, offered or permitted, except to confirm the correction of arithmetical errors discovered by the Procuring Entity in the evaluation of the Tenders, in accordance with ITT Clause 39.

Tenderers Contacting the Procuring Entity

36.1 Following the opening of the Tenders and until the Contract is signed no Tenderer shall make any unsolicited communication to the Procuring Entity or try in any way to influence the Procuring Entity's examination and evaluation of the Tenders.

36.2 Any effort by a Tenderer to influence the Procuring Entity in its decisions on the examination, evaluation, comparison, and post-qualification of the Tenders or Contract award may result in the rejection of its Tender.

36.3 Notwithstanding ITT Sub Clause 36.1, from the time of Tender opening to the time of Contract award, if any Tenderer wishes to contact the Procuring Entity on any matter related to the tendering process, it should do so in writing.

Tender Responsiveness

37.1 The Procuring Entity's determination of a Tender's responsiveness is to be based on the contents of the Tender itself without recourse to extrinsic evidence.

37.2 A substantially responsive Tender is one that conforms in all respects to the requirements of the Tender Document without material deviation, reservation, or omission. A material deviation, reservation, or omission is one that:

- (a) affects in any substantial way the scope, quality, or performance of the Goods and Related Services specified in the Contract; or
- (b) limits in any substantial way ; or is inconsistent with the Tender Document, the Procuring Entity's rights or the Tenderer's obligations under the Contract; or
- (c) if rectified would unfairly affect the competitive position of other Tenderers presenting substantially responsive Tenders.

37.3 If a Tender is not substantially responsive to the Tender Document it shall be rejected by the Procuring Entity and shall not subsequently be made responsive by the Tenderer by correction of the material deviation, reservation or omission.

37.4 There shall be no requirement as to the minimum number of responsive Tenders.

Non-conformities, Errors, and Omissions

38.1 The Procuring Entity may regard a Tender as responsive even if it contains minor deviations that do not materially alter or depart from the characteristics, terms, conditions and other requirement set forth in Tender Document or if it contains errors or oversights that are capable of being corrected without affecting the substance of the Tender.

38.2 Provided that a Tender is substantially responsive, the Procuring Entity may request that the Tenderer submits the necessary information or documentation, within a reasonable period of time, to rectify nonmaterial nonconformities or omissions in the Tender related to documentation requirements. Such omission shall not be related to any aspect of the price of the Tender. Failure by the Tenderer to comply with the request may result in the rejection of its Tender.

Correction of Arithmetical Errors

39.1 Provided that the Tender is substantially responsive, the Procuring Entity shall correct arithmetical errors on the following basis:

- (a) if there is a discrepancy between the unit price and the total price that is obtained by multiplying the unit price and quantity, the unit price shall prevail and the total price shall be corrected, unless, in the opinion of the Procuring Entity, there is an obvious misplacement of the decimal point in the unit price, in which case the total price as quoted shall govern and the unit price shall be corrected;
- (b) if there is an error in a total corresponding to the addition or subtraction of subtotals, the subtotals shall prevail and the total shall be corrected ; and
- (c) if there is a discrepancy between words and figures, the amount in words shall prevail, unless the amount expressed in words is related to an arithmetical error, in which case the amount in figures shall prevail subject to (a) and (b) above.

39.2 Any arithmetical error or other discrepancy, as stated in ITT Sub-Clause 39.1, is found it shall be immediately notified to the concerned Tenderer.

39.3 Any Tenderer that does not accept the correction of errors as determined by the application of ITT Sub-Clause 39.1, its Tender shall be disqualified and its Tender Security may be forfeited.

Preliminary Examination

40.1 The Procuring Entity shall firstly examine the Tenders to confirm that all documentation requested in ITT Clause 17 has been provided, and to determine the completeness of each document submitted.

40.2 The Procuring Entity shall assess whether the Tenderer's Qualifications as per Section C of the SIT are substantially met. Any negative determination by the Procuring Entity will result in rejecting the Tender as non-responsive without the need for further evaluation as per ITT Clauses 41 and 42.

Tender: Technical Evaluation

41.1 The Procuring Entity shall secondly examine the Tender to confirm that all terms and conditions specified in the GCC and the SCC have been accepted by the Tenderer without any material deviation or reservation.

41.2 The Procuring Entity shall evaluate the technical aspects of the Tender submitted in accordance with ITT Clause 23, to confirm that all requirements specified in Section 7: Technical Specifications, have been met without any material deviation or reservation.

41.3 If, after the examination of the Terms and Conditions and the Technical aspects of the Tender, the Procuring Entity determines that the Tender is not substantially responsive in accordance with ITT Clause 37, it shall reject the Tender.

Financial Evaluation

42.1 The Procuring Entity shall thirdly evaluate each Tender that has been determined, up to this stage of the evaluation, to be substantially responsive.

42.2 To evaluate a Tender, the Procuring Entity shall consider the following:

- (a) the Tender price as quoted in accordance with ITT Clauses 18 and 20, excluding local taxes (VAT and other taxes) which will be payable on the goods if contract is awarded) ;
- (b) price adjustment for correction of arithmetical errors pursuant to ITT Sub-Clause 39.1 ;
- (c) the applicable economic factors of evaluation set out in ITT Sub-Clause 42.3.

42.3 The Procuring Entity's economic evaluation of a Tender will take into account, in addition to the delivered price offered in accordance with ITT Sub-Clause 18.1, one or more

of the factors affecting the economic value of the Tender from the list below, as specified in the

SIT, and as quantified in ITT Sub-Clause 42.5:

- (a) the delivery schedule offered in the Tender ; and
- (b) the cost of components, mandatory spare parts, and service ;
- (c) the availability in Nigeria of spare parts and after-sales services for the equipment offered in the Tender ;
- (d) the projected operating and maintenance costs during the anticipated life-cycle of the equipment ;
- (e) the performance and productivity of the equipment offered ; or
- (f) any other specific criteria as specified in Section 7: Technical Specifications.

42.4 For those factors specified in ITT Sub Clause 42.3 which are selected to be considered in the evaluation of the Tenders, one or more of the following quantification methods shall be applied, as specified in the SIT.

(a) *Delivery schedule:*

(i) The goods covered under the IFT are required to be delivered at the time specified in Section 6: Schedule of Requirements. Treating the Tender with the earliest delivery as the base, a delivery 'adjustment' will be calculated for other Tenders for the purpose of evaluation, by applying a percentage, as specified in the SIT, of the Tender price for each week of delay beyond the base, and this will be added to the Tender price for evaluation. No credit shall be given to early delivery. Or

(ii) The goods covered under the IFT are required to be delivered within an acceptable range of weeks as specified in Section 6: Schedule of Requirements. No credit shall be allowed to earlier deliveries, and Tenders offering delivery beyond this range shall be treated as non-responsive. Within this acceptable range, an adjustment per week, as specified in the SIT, will be added, for the purpose of evaluation, to the Tender price of Tenders offering deliveries later than the earliest delivery period specified in Section 6 : Schedule of Requirements. Or

(iii) The goods covered under the IFT are required to be delivered in partial shipments, as specified in Section 6: Schedule of Requirements. Tenders offering deliveries later than the specified deliveries will be adjusted for the purpose of evaluation by adding to the Tender price a factor equal to a percentage, as specified in the SIT, of the Tender price per week of variation from the specified delivery schedule.

(b) *Cost of components and mandatory spare parts:*

The schedule of items and quantities of major assemblies, components, and selected spare parts, likely to be required during the initial period of operation specified in the SIT is annexed to Section 7: Technical Specifications. The total cost of these items, at the unit prices quoted in each Tender, will be added to the Tender price.

(c) Spare parts and after sales service facilities in Nigeri :

The cost to the Procuring Entity of establishing the minimum service facilities and parts inventories, as outlined in the SIT or Section 7: Technical Specifications, if quoted separately, shall be added to the Tender price.

(d) Projected operating and maintenance costs:

Operating and maintenance costs of the goods will be evaluated in accordance with the criteria specified in the SIT or in Section 7: Technical Specifications.

(e) Performance and productivity of the equipment:

(i) Tenderers shall state the guaranteed performance or efficiency of their equipment offered in response to Section 7: Technical Specifications. For each drop in the performance or efficiency below the norm of 100, an adjustment for an amount specified in the SIT will be added to the Tender price for the purpose of evaluation, representing the capitalized cost of additional operating costs over the life of the plant, using the methodology specified in Section 7: Technical Specifications. Or

(ii) Equipment offered shall have a minimum productivity specified under the relevant provision in Section 7: Technical Specifications, to be considered responsive.

Evaluation shall be based on the cost per unit of the actual productivity of goods offered in the Tender, and adjustment will be added to the Tender prices for the purpose of evaluation, using the methodology specified in Section 7: Technical Specifications.

(f) Specific additional criteria:

Other specific additional criteria to be considered in the evaluation and the evaluation method to be used for such criteria shall be as specified in the SIT and/or Section 7: Technical Specifications.

42.5 If so indicated in the SIT (ITT Sub-Clause 20.3), the Tender Document shall allow Tenderers to quote separate prices for one or more lots, and shall allow the Procuring Entity to award one or multiple lots to more than one Tenderer following the methodology specified in ITT Sub-Clause 42.6.

42.6 To determine the lowest evaluated lot, or combination of lots, the Procuring Entity shall:

(a) evaluate only the lot or lots which comply with the requirements specified in ITT Sub-Clause 20.3 ;

(b) take into account :

(i) the experience and resources sufficient to meet the aggregate of the qualifying criteria for the individual lots ;

- (ii) the lowest-evaluated Tender for each lot calculated in accordance with the requirements of
- (iii) the price reduction per lot or combination of lots and the methodology for their application as offered by the Tenderer in its Tender ; and
- (iv) the Contract award sequence that provides the optimum economic combination, taking into account any limitations due to constraints in supply or execution capacity determined in accordance with the post-qualification criteria under ITT Clause 45.

42.7 A margin of preference shall be applied to domestic tenders, if so specified in the SIT.

No Negotiation

43.1 No negotiation shall be held with the lowest or any other Tenderer.

43.2 A Tenderer shall not be required, as a condition for award, to undertake responsibilities not stipulated in the Tender Document, to change its price or otherwise to modify its Tender.

Tender Comparison

44.1 The Procuring Entity shall compare all substantially responsive Tenders to determine the lowest-evaluated Tender, in accordance with ITT Clause 42.

Post-qualification

45.1 The Procuring Entity shall determine to its satisfaction whether the Tenderer that is selected as having submitted the lowest evaluated and substantially responsive Tender is qualified to perform the Contract satisfactorily.

45.2 The determination shall be based upon an examination of the documentary evidence of the Tenderer's qualifications submitted by the Tenderer, pursuant to ITT Clause 24, to clarifications in accordance with ITT Clause 35 and the qualification criteria indicated in ITT Clauses 11, 12 and 13. Factors not included therein shall not be used in the evaluation of the Tenderer's qualification.

45.3 An affirmative determination shall be a prerequisite for award of the Contract to the Tenderer. A negative determination shall result in rejection of the Tenderer's Tender, in which event the Procuring Entity shall proceed to the next lowest evaluated Tender to make a similar determination of that Tenderer's capabilities to perform satisfactorily.

Procuring Entity's Right to Accept or to Reject Any or All Tenders.

46.1 The Procuring Entity reserves the right to accept any Tender, to annul the Tender process, or to reject any or all Tenders, at any time prior to contract award, without incurring any liability to the affected Tenderers, or any obligation to inform Tenderers of the grounds for the Procuring Entity's actions.

G. CONTRACT AWARD

Award Criteria

47.1 The Procuring Entity shall award the Contract to the Tenderer whose offer is substantially responsive to the Tender Document and has been determined to be the lowest evaluated responsive Tender, provided further that the Tenderer is determined to be qualified to perform the Contract satisfactorily.

Procuring Entity's Right to Vary Quantities.

48.1 The Procuring Entity reserves the right at the time of Contract Award to increase or decrease the quantity, per item, of Goods and Related Services originally specified in Section 6: Schedule of Requirements, provided this does not exceed the percentages indicated in the SIT, and without any change in the unit prices or other terms and conditions of the Tender and the Tender Document.

Notification of Award

49.1 Prior to the expiration of the period of Tender validity, the Procuring Entity shall notify the successful Tenderer, in writing, that its Tender has been accepted.

49.2 Until a formal Contract is prepared and executed, the Notification of Award shall constitute a binding Contract.

49.3 The Notification of Award shall state the value of the proposed Contract, the amount of the Performance Security, the time within which the Performance Security shall be submitted and the time within which the Contract shall be signed.

Performance Security

50.1 Within fourteen (14) days of the receipt of Notification of Award from the Procuring Entity, the successful Tenderer shall furnish Performance Security for the due performance of the Contract in the amount specified in the SIT, using for that purpose the Performance Security Form (Form G-8) furnished in Section 5: Tender and Contract Forms.

50.2 The Performance Security shall be valid until a date twenty-eight (28) days after the date of completion of the Supplier's performance obligations under the Contract, including any Warranty obligations.

50.3 The proceeds of the Performance Security shall be payable to the Procuring Entity unconditionally upon first written demand as compensation for any loss resulting from the Supplier's failure to complete its obligations under the Contract.

Contract: Signing

51.1 At the same time as the Procuring Entity issues the Notification of Award, the Procuring Entity shall send the Contract Agreement and all documents forming the Contract, to the successful Tenderer.

51.2 Within twenty-one (21) days of receipt of the Contract Agreement, and within one week after having delivered a valid Performance Security to the Procuring Entity, the successful Tenderer shall sign, date and return the Contract Agreement to the Procuring Entity.

51.3 Failure of the successful Tenderer to submit the Performance Security pursuant to ITT Clause 50 or sign the Contract pursuant to ITT Sub-Clause 51.2 shall constitute sufficient grounds for the annulment of the award and forfeiture of the Tender Security. In that event, the Procuring Entity may award the Contract to the next lowest evaluated responsive Tenderer at their quoted price (corrected for arithmetical errors), who is assessed by the Procuring Entity to be qualified to perform the Contract satisfactorily.

51.4 Immediately upon receipt of the signed Contract Agreement and Performance Security from the successful Tenderer, the Procuring Entity shall discharge and return the successful Tenderer's Tender Security.

Advising Unsuccessful Tenderers

52.1 Upon the successful Tenderer furnishing Performance Security pursuant to ITT Clause 50, and signing the Contract pursuant to ITT Sub-Clause 51.2, the Procuring Entity shall also notify all other Tenderers that their Tenders have been unsuccessful.

52.2 The Procuring Entity shall promptly respond in writing to any unsuccessful Tenderer who, after notification in accordance with ITT Sub-Clause 52.1, requests in writing for the Procuring Entity to communicate the grounds on which its Tender was not selected.

Tenderers Right to Complain

53.1 Any Tenderer has the right to complain if it has suffered or may suffer loss or damage in accordance with paragraphs 23-27 of the Public Procurement Regulations for Goods and Works, dated June 4th, 2007.

53.2 The complaint shall firstly be processed through an administrative review following the procedures set out in paragraph 24 of the Public Procurement Regulations for Goods and Works. The place and address for the first step in the submission of complaints to the Administrative Authority is provided in the SIT.

53.3 If not satisfied with the outcome of the administrative review, the Tenderer may complain to the BPP pursuant to paragraph 25 of the Public Procurement Regulations for Goods and Works.

The evaluation of tenders is carried out in the following steps.

(a) In the first step, all tenders in each group are compared to determine the lowest responsive tender in each group. Such lowest evaluated tenders are then compared with each other, and if, as a result of this comparison, a tender from Group A or B is the lowest, it will be selected for award (i.e. no preference is needed.)

(b) If as a result of the comparison under *(a)*, the lowest evaluated tender is a tender from Group C, 15 percent of the evaluated CIP tender price is added to this tender from Group C (for comparison only) and the resulting price is then further compared with the lowest evaluated tender from Group A (which includes a minimum of 30 percent of value added locally). The lowest evaluated tender from this last comparison is then selected for award.

In the case of turnkey Contracts for the supply of a number of distinct items of equipment as well as major installation and/or construction services, no margin of preference shall apply.

33.2 Except in the case of Force Majeure, as provided under GCC Clause 37, a delay by the Supplier in the performance of its Delivery and Completion obligations shall render the Supplier liable to the imposition of liquidated damages pursuant to GCC Clause 34, unless an extension of time is agreed upon, pursuant to GCC Sub-Clause 33.1.

shall be deemed to include any change in interpretation or application by the competent authorities) that subsequently affects the Delivery Date and/or the Contract Price, then such Delivery Date and/or Contract Price shall be correspondingly increased or decreased, to the extent that the Supplier has thereby been affected in the performance of any of its obligations under the Contract. Notwithstanding the foregoing, such additional or reduced cost shall not be separately paid or credited if the same has already been accounted for in the price adjustment provisions where applicable, in accordance with GCC Clause 23.

Force Majeure

37.1 The Supplier shall not be liable for forfeiture of its Performance Security, liquidated damages, or termination for default if and to the extent that its delay in performance or other failure to perform its obligations under the Contract is the result of an event of Force Majeure.

37.2 For purposes of this Clause, “Force Majeure” means an event or situation beyond the control of the Supplier that is not foreseeable, is unavoidable, and its origin is not due to negligence or lack of care on the part of the Supplier.
