

ORDER/NERC/2024/032A

**BEFORE THE NIGERIAN ELECTRICITY REGULATORY COMMISSION**  
**IN THE MATTER OF THE APPROVAL OF 11KV, 33KV AND 132KV FEEDERS FOR**  
**BAND A SERVICE BY IKEJA ELECTRIC PLC**

This regulatory instrument shall be cited as Addendum - 1 to the April 2024 Supplementary Order for Ikeja Electric Plc ("IE")

2. Pursuant to the April 2024 Supplementary Order No. NERC/2024/032 for Ikeja DisCo, the Commission has reviewed and considered IE's request for additional feeders to be classified as Band A. Accordingly, the Commission hereby approves additional six (6) Nos. of 11kV bilateral feeders, thirty-one (31) Nos of 33kV feeders and three (3) Nos of 132kV feeders provided in schedules 1 and 2 below to have met the minimum service requirements and be reclassified as Band A Feeders.
3. IE shall ensure that only the customer or group of customers directly connected to the approved 33kV feeders are billed at the Band A tariff. Where there are 11kV feeders radiating from the approved 33kV feeders, such 11kV feeders **shall not be** automatically classified as Band A. The 11kV feeders in this category must be presented for independent evaluation based on their reported service levels.
4. IE shall henceforth include the newly approved Band A feeders in its daily online reporting.
5. The Commission shall continue to monitor the performance of all the feeders to ensure compliance with the committed level of service.

Musliu O. Oseni  
**Vice-Chairman**
