

ORDER/NERC/2024/108

# BEFORE THE NIGERIAN ELECTRICITY REGULATORY COMMISSION IN THE MATTER OF AUGUST 2024 SUPPLEMENTARY ORDER TO THE MULTI-YEAR TARIFF ORDER 2024 FOR YOLA ELECTRICITY DISTRIBUTION PLC

#### TITLE

1. This regulatory instrument shall be cited as August 2024 Supplementary Order to the Multi-Year Tariff Order – 2024 ("August 2024 Supplementary Order") for Yola Electricity Distribution Plc ("YEDC").

#### COMMENCEMENT AND TERMINATION

2. This Supplementary Order shall take effect from 1st August 2024 and it shall cease to be effective on the issuance of a new tariff review Order for YEDC by the Nigerian Electricity Regulatory Commission ("NERC" or the "Commission").

#### CONTEXT

- 3. Pursuant to the Tariff Review Application by YEDC, the Commission approved MYTO-2024 effective from 1st January 2024. The Order among others;
  - a. Restated YEDC's Performance Improvement Plan ("PIP") and approved a revised 5-year CAPEX provision to finance planned CAPEX projects. The Order further applied regulatory adjustments to the verified historical investments of YEDC;
  - Approved a reset of the baseline ATC&C loss level to a new target considered to be fair and reasonable given current operating conditions and comparable benchmarks within and outside the Nigerian Electricity Supply Industry ("NESI");
  - Revised relevant assumptions for the forecast of revenue requirements and applicable tariffs for the period 2024 – 2027;

## **OBJECTIVE**

4. Further to Section 23 of the MYTO-2024, this Supplementary Order seeks to reflect the changes in the pass-through indices outside the control of licensees including inflation rates, ₦/US\$ exchange rate, available generation capacity and gas price for the determination of Cost-Reflective Tariffs ("CRT").

#### BASIS FOR THE REVIEW

## 5. Minor Review Indices

The underlisted indices with potential impact on electricity rates were considered to determine YEDC's revised revenue requirements and associated tariffs:

- a. Exchange Rate: The Naira to the US Dollar exchange rate of ₩1,564.28/US\$1 has been adopted for August December 2024; this has been determined by adding a 1% transaction cost to the average foreign exchange rate of ₩1,548.80 during the period of 1<sup>st</sup> 26<sup>th</sup> July 2024 as obtained from the website of the Central Bank of Nigeria ("CBN") in line with the MYTO methodology.
- b. Nigerian Inflation Rate: The Nigerian inflation rate of 34.19% for June 2024 as published by the National Bureau of Statistics ("NBS") is applied to revise the Nigerian inflation rate projection for 2024.
- c. US Inflation Rate: Based on the data published by the United States Bureau of Labor Statistics (<a href="http://www.bls.gov">http://www.bls.gov</a>), the US inflation rate of 3.00% for June 2024 is applied to revise the US Inflation rate projection for 2024.
- d. Available Generation Capacity: Considering the periodic reports from the System Operator, the review maintains the January 2024 projection of an average offtake of 113MWh/h by YEDC in 2024.

## e. Wholesale Gas to Power Prices:

- i. The review maintains the benchmark gas-to-power price of US\$2.42/MMBTU based on the established benchmark price of gasto-power by the Nigerian Midstream and Downstream Petroleum Regulatory Authority ("NMDPRA") in line with Section 167 of the Petroleum Industry Act ("PIA") 2021
- ii. Contracted gas supply and transportation prices outside Domestic Gas Delivery Obligation quantities and based on effective Gas Sale Agreements ("GSAs") approved by the Commission.
- iii. Benchmark Gas Transportation tariff of US\$0.80/MMBTU.

## 6. Summary of Tariff Assumptions and Results

Table 1 below summarises the tariff review indices adopted in this Order.

Table - 1: Key Tariff Review Indices/Assumptions for YEDC

	Table - 1: Key Tariii Keview Maices/Assumptions for TEDC							
	Parameter	Unit	June 2024	July 2024	August 2024			
	Loss Target	%	56.00%	56.00%	56.00%			
	Nigerian Inflation	%	33.7%	34.0%	34.2%			
	US Inflation	%	3.4%	3.3%	3.0%			
	Exchange Rate	₩/\$	1469.1	1494.1	1564.3			
Gas Su	Gas Supply and Transportation Cost		3.22	3.22	3.22			
Т	ransmission Loss Factor	%	7.00%	7.00%	7.00%

Er	ergy Delivered to DisCo	MWh/h	113	113	113			
	Generation Cost	₩/kWh	104.4	106.2	111.1			
Tr	ansmission & Admin Cost	<b>N</b> /kWh	10.0	10.1	10.3			
End	User Cost Reflective Tariffs	<b>N</b> /kWh	319.1	323.5	335.9			
E	ind-User Allowed Tariffs	₩/kWh	64.6	121.7	138.0			
Mont	hly Tariff Shortfall (Subsidy)	<b>N</b> 'Million	9,217	7,309	7,166			

# 7. Approved End-User Tariffs Effective from 1st August 2024

Pursuant to Section 116 of the EA and extant regulations, the Commission has considered and approved for YEDC, the tariffs in Table 2 below effective 1st August 2024. The approved tariffs shall remain in force subject to monthly adjustments of pass-through indices including inflation rates, NGN/US\$ exchange rates and gas-to-power prices.

In line with the policy direction of the FGN on electricity subsidy, the allowed tariffs for Bands B - E customer categories shall remain frozen at the rates payable since December 2022 subject to further policy direction by the Government. With this policy, the estimated subsidy benefit for customers under the YEDC franchise in 2024 is approximately \$\frac{17}{2}\$ n monthly.

Table - 2: Approved Allowed Tariffs (\H/kWh) for YEDC

Ta	riff Class	April 2024	May - Jun 2024	July - August 2024
ı	ife-line	4.00	4.00	4.00
Α-	Non-MD	225.00	206.80	209.50

С	- MD2	57.45	57.45	57.45
D -	Non-MD	50.01	50.01	50.01
D	- MD1	54.93	54.93	54.93
D	- MD2	54.93	54.93	54.93

## 8. Service Delivery Commitments

YEDC shall be held accountable for service deliveries per commitments under its Service Based Tariff proposals that seek to align end-user tariffs in proportion to the service level enjoyed by customer clusters as measured in average hours of supply per day over one month. Details of the service level commitments made by YEDC to customers in various tariff Bands for **August 2024** are provided in Appendixes 2 – 3.

## 9. Monitoring and Evaluation of Compliance to Service Commitment

- a. The Commission shall continue to leverage technology to directly obtain data on the hours of supply on each Band A feeder from the head-end system of YEDC for near real-time monitoring of service.
- b. YEDC shall maintain a rapid response team to ensure effective service delivery on the committed minimum hours of supply to each service Band commencing with Band A feeders. The team shall continue to ensure timely response to customers' complaints, fault clearing and alignment with TCN regional teams for effective load management and optimised dispatch to respective feeders. YEDC shall maintain the dedicated email and contact numbers of the service rapid response team for each customer cluster/business unit on its website and continue to circulate the same to the customers via bulk SMS and social media handles.
- c. YEDC is obligated to publish a rolling 7-day average daily hours of supply on each Band A feeder daily on its website no later than 09:00 am of the next day.

- d. Where YEDC fails to deliver on the committed level of service on a Band A feeder for consecutive two days, YEDC shall on the next day by 10.00 am publish on its website an explanation of the reasons for the failure and update the affected customers on the timeline for restoration of service to the committed service level.
- e. Where YEDC fails to meet the committed service level to a Band A feeder for seven (7) consecutive days, the feeder shall be automatically downgraded to the recorded level of supply pursuant to provisions of Section 6 of Order No. NERC/334/2022 "Order on Migration of Customers and Compensation for Service Failure under Service-Based Tariff Framework".
- f. YEDC is mandated to continuously ensure upward migration of customers from the lower service Bands to Band A service level in line with the target on improvement in quality of service as provided in the Order on Key Performance Indicators for YEDC issued from time to time by the Commission

## 10. Service Band Performance, Migration/Downgrade and Compensation

Pursuant to the provisions of the Order on Migration of Customers and Compensation for Service Failure under the Service-Based Tariff Framework ("Order on Migration") and the Directive to Electricity Distribution Companies on Band A Feeder Performance Monitoring, Upgrade and Downgrade ("Directive for Operationalization of Band A Feeders"), the Commission, based on the feeder performance report for the 1st – 25th of July 2024, hereby orders as follows:

a. YEDC has delivered up to 20 hours of average supply from 8<sup>th</sup> – 21<sup>st</sup> July 2024 on the feeders listed in Appendix 2. Thus, the YEDC application to upgrade the feeders to Band A effective from the 1<sup>st</sup> of August 2024 is hereby approved.

#### 11. Procurement of Embedded Generation

YEDC is obligated by this Order to procure a minimum of 11MW capacity of embedded generation, being 10% of its 2024 load allocation, to improve the reliability of supply and sustain delivery of a minimum service level under the SBT. A minimum of 6MW (i.e., 50%) of the embedded generation capacity must be sourced from renewable energy sources. The required capacity may be procured in bulk or distributed capacities across YEDC's Franchise area. The capacity to be procured should be ready for dispatch to the YEDC's network by the 1st of April 2025.

## 12. YEDC's Remittance Obligation

The FGN policy on subsidy and electricity tariffs provides for a gradual transition to cost-reflective end-user tariffs with safeguards for the less privileged electricity consumers. Accordingly, the Federal Government has committed to funding the

Page I 5

revenue gap arising from the difference between cost-reflective tariffs approved by the Commission and the actual end-user tariffs during the transition to cost-reflective tariffs where applicable. YEDC shall settle its market invoices under the DisCo Remittance Obligation thresholds as provided in Table 3. All settlements are subject to regulatory net-offs as may be issued from time to time by the Commission.

			The state of the s				

- 13. The waterfall of market revenues during the transitional period shall be in line with the following:
  - a. NBET shall issue energy invoices to YEDC net of the applicable tariff shortfall approved by the Commission monthly, while MO shall issue the full transmission and administrative services invoices to YEDC at the applicable tariff.
  - b. YEDC shall make full settlement (100%) of the market invoices issued by MO (including Zungeru Power Plant) and NBET as provided in Table 3 above.
  - c. FGN intervention from budgetary appropriation and other sources for funding tariff shortfall shall be applied by NBET to ensure 100% settlement of market invoices as issued by generating companies ("GenCos").
  - d. YEDC shall be liable to relevant penalties/sanctions for failure to meet the payment obligation in any payment cycle under the terms of its respective contracts with bilateral counterparties including NBET and MO.
  - e. YEDC shall maintain adequate payment securitisation for energy off-take in line with the earlier directive of the Commission and relevant bilateral contracts.
  - f. YEDC shall settle its market invoices under the DisCo Remittance Obligation thresholds as provided in Table 3. All settlements are subject to regulatory net-offs as may be issued from time to time by the Commission.

## 14. Effective Date

This Supplementary Order shall be effective from 1st August 2024.

Dated this 31st day of July 2024
