

ORDER/NERC/2025/110

**BEFORE THE NIGERIAN ELECTRICITY REGULATORY COMMISSION  
IN THE MATTER OF OCTOBER 2025 SUPPLEMENTARY ORDER TO THE MULTI-  
YEAR TARIFF ORDER 2024 FOR BENIN ELECTRICITY DISTRIBUTION PLC**

**TITLE**

1. This regulatory instrument shall be cited as **October 2025 Supplementary Order to the Multi-Year Tariff Order – 2024** ("October 2025 Supplementary Order") for BENIN Electricity Distribution Plc ("BEDC" or "the HoldCo").

**COMMENCEMENT AND TERMINATION**

2. This Order shall take effect on 1<sup>st</sup> October 2025 and shall cease to be effective on the issuance of a new tariff review Order for BEDC by the Nigerian Electricity Regulatory Commission ("NERC" or the "Commission").

**LEGAL CONTEXT**

3. Pursuant to the move to decentralise the Nigerian Electricity Market, reduce reliance on the national grid and encourage private sector investment, Paragraph 14(b) Part II of the Second Schedule to the 1999 CFRN was amended as follows –  
  
*"a House of Assembly may make laws for the State with respect to generation, transmission, and distribution of electricity to areas not covered by the national grid system within the State" was amended to "a House of Assembly may make laws for the State with respect to generation, transmission, and distribution of electricity to areas within that State".*
4. The amendment granted the legislative autonomy to federating states in the Federal Republic of Nigeria by empowering the sub-national governments to legislate on the generation, transmission, and distribution of electricity within each respective state.
5. In May 2023, President Bola Tinubu GCFR assented to the Electricity Act 2023 ("EA" or "EA 2023" or the "Act") into law. Pursuant to the Constitutional amendment, the Act takes due cognisance of the powers conferred on the federating states, and not to, among others, invalidate any law passed by the

House of Assembly of a State to sanction the establishment of a state electricity market and a *State Integrated Policy and Strategic Implementation Plan*.

6. The EA explicitly limits the State Regulators to intrastate activities, with interstate and international activities being exclusively within the regulatory jurisdiction of NERC as contemplated by subsection 63(2)(b) of the EA, which states that –  
*"Notwithstanding the provision of subsection (1), a person may – construct, own, operate an undertaking for generation, transmission, distribution, supply and sale of electricity, including the construction, ownership and operation of mini grid, IEDN/IEDNOs or its IETN/IETNOs within a State under a law enacted by the House of Assembly under section 2(2) of this Act, provided that such a license does not permit the licensee to provide inter-state or transnational distribution of electricity in Nigeria."*
7. Consequent upon receiving notification from various states regarding the passage of their electricity laws and establishment of State Regulators, and in compliance with section 230 of the EA, the Commission has issued requisite Orders transferring regulatory oversight to various state governments.
8. In furtherance of the transition process, the Commission issued NERC Orders on the Delineation of Assets and Liabilities 2025 (NERC/2025/070 – NERC/2025/080) for all the successor distribution companies ("DisCos" or "HoldCos"), highlighting the share of the assets and liabilities of the HoldCos to be transferred to the respective subsidiary companies ("SubCos") and providing economic data for states to undertake rate making for SubCos.
9. The Delineation Order also transfers the entire energy offtake obligation of the HoldCo with the Nigerian Bulk Electricity Trading Plc ("NBET") to its constituent SubCos based on the historical energy delivered to each state in 2024 to ensure that the HoldCo is not left with any stranded capacity.
10. In the short term, however, the transferred energy is to be traded via the HoldCo based on a transitional energy sales agreement, with the long-term expectation that the contract will be novated to the SubCos, who will then execute a direct bilateral contract with the Generation Companies ("GenCos").
11. Historically, the energy traded between HoldCos and NBET is subject to end-users' tariff subsidy of the FGN, solely determined by NERC as the difference between the HoldCos' revenue requirements and their allowed recovery from the customers based on subsisting FGN policy directive.
12. Accordingly, and notwithstanding the transfer of regulatory oversight to some states, for October 2025, NERC has the sole responsibility for the determination of the remittance obligations for BEDC regarding the energy delivered under its vesting arrangement with NBET due to the following facts that –
  - a. The energy being consumed by the state, that has transitioned or yet to be transitioned ("YTTS") under the BEDC franchise, are procured through the BEDC and is still subject to FGN's subsidy; and

- b. NERC has the sole responsibility for determining the subsidy obligation to be borne by FGN in line with the FGN's extant policy directives

## OBJECTIVE

13. The October 2025 Supplementary Order seeks to reflect the recent changes in the pass-through indices outside the control of licensees, including inflation rates, ₦/US\$ exchange rate, available generation capacity and gas price for the revision of the BEDC's revenue requirements, allowed recovery and remittance obligations.

## DETERMINATION OF BEDC'S REVENUE REQUIREMENT, ALLOWED RECOVERY, AND REMITTANCE OBLIGATION

14. Pursuant to the Tariff Review Application by BEDC on 6 July 2023, NERC approved MYTO-2024 effective from 1<sup>st</sup> January 2024. The Order, among others:
  - a. Restated BEDC's Performance Improvement Plan ("PIP") and approved a revised 5-year CAPEX provision to finance planned CAPEX projects. The Order further applied regulatory adjustments to the verified historical investments of BEDC;
  - b. Approved a reset of the baseline ATC&C loss level to a new target considered to be fair and reasonable given current operating conditions and comparable benchmarks within and outside the Nigerian Electricity Supply Industry ("NESI");
  - c. Revised relevant assumptions for the forecast of revenue requirements, allowed recovery and remittance obligations for the period 2024 - 2027;
15. In line with Section 23 of the MYTO-2024, the Commission has been issuing the monthly Supplementary Orders to MYTO-2024 to reflect changes in the pass-through indices (not within the control of licensees), including inflation rates, ₦/US\$ exchange rate, available generation capacity and gas price for the revision of BEDC's revenue requirements, allowed recovery and remittance obligations.

## BASIS FOR THE REVIEW

### 16. Minor Review Indices

The underlisted indices with potential impact on electricity rates were considered to revise BEDC's revenue requirements and associated remittance obligations:

- a. **Exchange Rate:** The Naira to US Dollar exchange rate of ₦1,517.80/US\$1 has been adopted for October 2025; this has been determined by adding a 1% transaction cost to the average foreign exchange rate of ₦1,502.78 during the period of 1<sup>st</sup> - 23<sup>th</sup> September

2025 as obtained from the website of the Central Bank of Nigeria ("CBN") in line with the MYTO methodology.

- b. **Nigerian Inflation Rate:** The Nigerian inflation rate of 20.12% for August 2025, published by the National Bureau of Statistics ("NBS"), is applied to revise the Nigerian inflation rate projection for 2025.
- c. **US Inflation Rate:** Based on the data published by the United States Bureau of Labour Statistics (<http://www.bls.gov>), the US inflation rate of 2.90% for August 2025 is applied to revise the US Inflation rate projection for 2025.
- d. **Available Generation Capacity:** Considering the periodic reports from the System Operator, a projection of an average offtake of 611MWh/h by BEDC is adopted, effective October 2025.
- e. **Wholesale Gas to Power Prices:** The review adopts the underlisted benchmarks established by the Nigerian Midstream and Downstream Petroleum Regulatory Authority ("NMDPRA") in line with the Petroleum Industry Act ("PIA") 2021:
  - i. The gas-to-power price of US\$2.13/MMBTU based on the revised benchmark price by NMDPRA in April 2025 in compliance with Section 167 of the PIA.
  - ii. An interim Shrinkage Factor ("SF") of 3% as established by NMDPRA pending the deployment of a model that will automatically set the SF on the gas network.
  - iii. A wholesale levy of 0.5% on the cost of gas earmarked for the Midstream and Downstream Gas Infrastructure Fund ("MDGIF") as established by NMDPRA in compliance with Section 52(7) of the PIA.
  - iv. The contracted gas supply and transportation prices outside Domestic Gas Delivery Obligation quantities are based on effective Gas Sale Agreements ("GSAs") approved by the Commission.
  - v. Benchmark Gas Transportation tariff of US\$1.13/MMBTU based on the revised benchmark price by NMDPRA in July 2025.
- f. **Transmission Infrastructure Fund:** Pursuant to the NERC Order on PIP for the Transmission Company of Nigeria Plc ("TCN") and the Nigerian Independent System Operator ("NISO") 2025, a provision of ₦2.17/kWh of the projected on-grid energy delivered to BEDC was considered as the contribution towards the build-up of the TIF.

## 17. Summary of Underlying Assumptions and Results

Table 1 below presents the summary of the review indices adopted in this Order.

**Table – 1: Key Revenue Requirement Review Indices/Assumptions for BEDC**

Parameter	Unit	Aug 2025	Sep 2025	Oct 2025

Monthly Tariff Shortfall (Subsidy)	₦' Million	15,773	15,909	15,295

## 18. BEDC's Remittance Obligation

Pursuant to the Federal Government's commitment to fund the revenue gap arising from the difference between cost-reflective tariffs approved by the Commission and the allowed recovery during the transition to cost-reflective tariffs, BEDC shall settle its market invoices under the DisCo Remittance Obligation thresholds as provided in Table 2.

**Table 2: Monthly BEDC's Remittance Obligation**

	DisCo Remittance to ZHEPP	100%	100%	100%
	DisCo Remittance to MO	100%	100%	100%

19. The waterfall of market revenues during the transitional period shall be in line with the following:

- a. NBET shall issue energy invoices to BEDC net of the applicable tariff shortfall approved by the Commission, while MO shall issue the full transmission and Admin invoices, and contribution to TIF to BEDC at the applicable tariff.

- b. BEDC shall make full settlement (100%) of the market invoices issued by MO (including Zungeru Power Plant) and NBET as provided in Table 2 above.
- c. FGN intervention from budgetary appropriation and other sources for funding tariff shortfall shall be applied by NBET to ensure 100% settlement of market invoices as issued by generating companies ("GenCos").
- d. BEDC shall be liable to relevant penalties/sanctions for failure to meet the payment obligation in any payment cycle under the terms of its respective contracts with bilateral counterparties, including NBET and MO.
- e. BEDC shall maintain adequate payment securitisation for energy off-take in line with the earlier directive of the Commission and relevant bilateral contracts.
- f. BEDC shall settle its market invoices under the DisCo Remittance Obligation thresholds as provided in Table 2. All settlements are subject to regulatory net-offs as may be issued from time to time by the Commission.

**Approved End-User Tariffs for the Yet to be Transitioned States ("YTTS") under BEDC, Effective from 1st October 2025**

- 20. The EA requires the Commission to continue to provide regulatory oversight over YTTS and/or states without a regulatory institution as provided in section 63(7) of the EA which states that *"notwithstanding the provision of subsection (1), it shall be the responsibility of the State Electricity Board or any State authority by whatever appellation, to grant licence for mini-grids, IEDN/IEDNOs and IETN, IETNOs and provide the framework for the operation of such licensees, including framework for investment in electricity utilities within the State: Provided that the Commission shall retain regulatory powers over mini-grids, IEDN/IEDNOs and IETN/IETNOs in any State of the Federation where such a State –*
  - i. *Has no legal and institutional framework in place for the regulation of mini-grids, IEDNs, IETNs or related electricity services; or*
  - ii. *The operation of such IEDN/IEDNOs, IETN/IETNOs or electricity generation, transmission and distribution undertaking within any State of the Federation relies on any part of the national grid for its operations.*
- 21. Accordingly, the Commission is mandated to issue the end-user tariff for customers in the YTSS under BEDC franchise areas – Edo state and Delta state.

22. Pursuant to Section 116 of the EA and extant regulations, the Commission has considered and approved for the YTTS under BEDC the tariffs in Table 2 below, effective 1st October 2025. The approved tariffs shall remain in force subject to monthly adjustments of pass-through indices, including inflation rates, NGN/US\$ exchange rates and gas-to-power prices.
23. In line with the policy direction of the FGN on electricity subsidy, the allowed tariffs for Band (A) and Bands (B–E) customer categories in the YTTS under BEDC shall remain frozen at the rates payable since July 2024 and December 2022, respectively, subject to further policy direction by the Government.

#### **24. Service Delivery Commitments**

BEDC shall be held accountable for service deliveries in the YTTS under BEDC, as per commitments made under its Service-Based Tariff proposals. These SBT proposals aim to align end-user tariffs in proportion to the service level enjoyed by customer clusters, as measured by the average hours of supply per day over one month. Details of the service level commitments made by BEDC to customers in various tariff Bands for October 2025 are shown in Appendices.

## 25. Monitoring and Evaluation of Compliance with Service Level Commitment

- a. The Commission shall continue to leverage technology to directly obtain data on the hours of supply on each Band A feeder from the head-end system of BEDC for near real-time monitoring of service.
- b. BEDC shall maintain a rapid response team to ensure effective service delivery on the committed minimum hours of supply to each service Band, commencing with Band A feeders. The team shall continue to ensure timely response to customers' complaints, fault clearing and alignment with TCN regional teams for effective load management and optimised dispatch to respective feeders. BEDC shall maintain the dedicated email and contact numbers of the service rapid response team for each customer cluster/business unit on its website and continue to circulate the same to the customers vide bulk SMS and social media handles.
- c. BEDC is obligated to publish daily on its website a rolling 7-day average daily hours of supply on each Band A feeder no later than 10:00 am of the next day.
- d. Where BEDC fails to deliver on the committed level of service on a Band A feeder for consecutive two days, BEDC shall, on the next day by 10.00 am, publish on its website an explanation of the reasons for the failure and update the affected customers on the timeline for restoration of service to the committed service level.
- e. Where BEDC fails to meet the committed service level to a Band A feeder for seven (7) consecutive days, the feeder shall be automatically downgraded to the recorded level of supply pursuant to the provisions of Section 6 of Order No. NERC/334/2022 – “Order on Migration of Customers and Compensation for Service Failure under Service-Based Tariff Framework”.
- f. BEDC is mandated to continuously ensure upward migration of customers from the lower service Bands to Band A service level in line with the target on improvement in quality of service as provided in the Order on Key Performance Indicators for BEDC issued from time to time by the Commission.

## 26. Service Band Performance, Migration/Downgrade and Compensation

Pursuant to the provisions of the Order on Migration of Customers and Compensation for Service Failure under the Service-Based Tariff Framework and the Revised Directive to Electricity Distribution Companies on Band A Feeder Performance Monitoring, Upgrade and Downgrade, the Commission, based on the feeder performance report for 1<sup>st</sup> – 21<sup>st</sup> of September 2025, hereby orders as follows:

- a. BEDC shall make appropriate compensation to the affected customers in Band A feeders listed in Appendix 2 for failure to deliver up to 20 hours of average supply but more than 18 hours of average supply in line with the provisions of the Order on Migration, while the feeders shall remain as Band A.
- b. BEDC has delivered up to 20 hours of average supply from 8 - 21 September 2025 on the feeders in Appendix 3. Therefore, the BEDC application to upgrade the feeders to Band A, effective 1<sup>st</sup> October 2025, is hereby approved.

## 28. Effective Date

This Supplementary Order shall be effective from 1<sup>st</sup> October 2025.

Dated this 29<sup>th</sup> day of September 2025
